

The first official NSD multiplayer tournament is complete and the Champion is Baldwin. Congratulations Baldwin! I know it was no easy task as the first tournament featured many seasoned MP veterans. The championship game was fought on the Alpine Map. If you aren't familiar with the Scourge Of War Gettysburg Maps, Alpine is a HUGE map with mountainous terrain and offers many tactical possibilities. The OOB used was completely balanced with three arms on each side (Infantry, Cavalry, Artillery).

If you are a fan of multiplayer and want to show your skills, we encourage you to sign up for the next tournament which will feature 2 Vs. 2 team games. More information can be found here:
